Baclofen Sintetica Refill Kit.

/*Enhance Intrathecal Therapy*/

Baclofen Sintetica Refill Kit was developed to ensure the pump refilling process is safe and efficient. All packaging improvements are the result of listening to practitioner. The Baclofen Sintetica Refill Kit provides all the components needed to perform a sterile refill of the intrathecal pump. More safety for patients and physicians and a reduction of refill time make the Baclofen Sintetica Refill Kit the ideal Solution for the management of the intrathecal pumps' refilling.
